

## **Cleveland Heights High School Alumni Foundation Grants**

The Cleveland Heights High School Alumni Foundation Grants are designed to support teachers and staff at Cleveland Heights High School who wish to enhance the educational opportunities and activities available to students at Cleveland Heights High. Educators have many innovative ideas about how learning can be made more exciting, effective, or interesting and how the curricula can be expanded or adapted to meet the unique needs of special groups. The Cleveland Heights High School Alumni Foundation wants to support innovative programs and fund opportunities that may not occur were it not for support from the Foundation.

### **Purpose**

To provide funds, not otherwise available, for special programs, activities or materials to enhance the education of Cleveland Heights High School students.

### **Eligibility**

Teachers and staff may apply, individually, as a team or as a linked team across grade levels. All applicants must be full-time staff at Cleveland Heights High School.

### **Guidelines for Grants**

Applicants may link together to request grants of larger awards, to be awarded at the Foundation's discretion. Only projects with educational content, which could not be funded elsewhere, will be considered. Projects with potential impact beyond the initial grant period will be given priority. Inter-classroom, interdisciplinary and multi-teacher (i.e. team) requests will be given priority. Grants are awarded of up to \$1,500 per year. Other criteria that the Foundation considers:

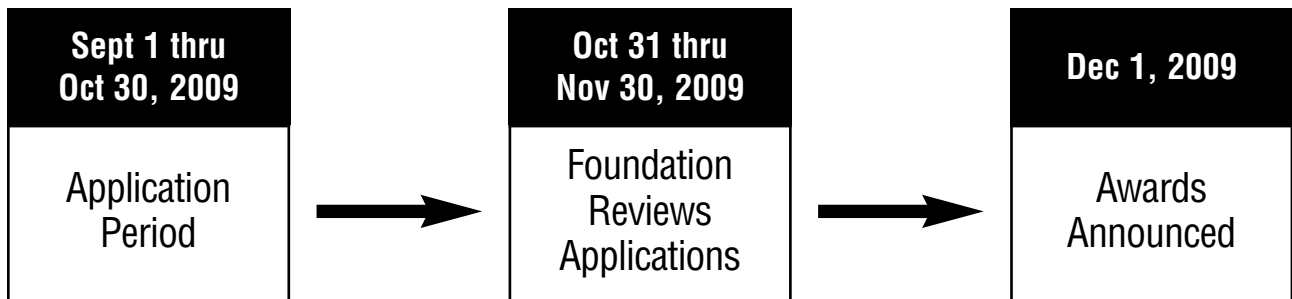

- Programs should reflect an emerging area in the arts, technology or science.
- Programs may be academic or vocational in nature.
- Programs should provide students with a measurable skill set at the completion of the program.
- Programs should differentiate CHHS from other local high schools and community programs by providing a unique experience that cannot be fulfilled elsewhere.
- Programs should complement or benefit an existing CHHS academic or vocational program.
- Programs that demonstrate outstanding institutional impact are eligible for renewable funding.
